Furniture makers have stripped the father of ideas clean to supply new ideals of home attraction.

Come in, enjoy the spectacle, and see what it suggests for your home.

## "Fumed Oak is Fashionable"

Since Fumed Oak Furniture was revived a few years ago, two or three million people have been interested in it. Some bought one piece skeptically—then came for more.

The truth is, the soft brown color of Fumed Oak imparts a warm, hospitable air to a room that is not equalled by any other color scheme.

The browns blend with almost any other color in your furnishings, and the wood finished this way is most easily kept clean.

For these reasons, Fumed Oak is destined to a lasting popularity that makes the buying of it safe and economical.

Our new fall pieces for dining room and living room are especially charming.
